## Lamp Holder Modular

Installation Guide

## Document # 70009-EN-R1A

**Preparation: Installation Lamp Holder Modular** 

## **Removing the Lamp Holder**

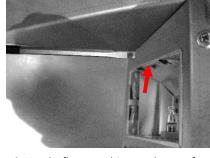

1. Use these tools to replace the lamp socket. A Phillips screwdriver, a flat screwdriver and a wire cutter

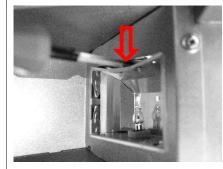

2. Disconnect the oven from the main power supply or unplug it. Wait until all the surfaces are cold

1. Remove the glass

2. Use the flat screwdriver on the top of the lamp holder

3. Press down the top of the holder

4. Remove the lamp holder by pulling it from the top

5. Leave the lamp over the frame

6. Follow **"STEPS A"** only if the lamp is at the left-hand side, and **"STEPS B"** only if the lamp is at the right hand side
